

HOME QUARANTINE NOTICE

You are hereby required to confine your animal for [10 days] [4 months – cats and dogs] [6 months – ferrets only] from the date of this notice in compliance with State rules governing rabies management. Pending the animal control officer (ACO) or person acting in that capacity's investigation, this quarantine period could be increased upon further findings. The animal must be kept separate from humans and other animals to observe for signs of rabies and to prevent humans or animals from being exposed.

You must report to the ACO immediately in case the animal shows signs of illness or behavior changes during the quarantine period. The animal may not run at large nor be left outside unsupervised. The animal shall not be taken from the quarantine area except to be transported to a veterinarian for examination or euthanasia and must be under the direct supervision of a responsible adult, on a leash or tether, no longer than six feet. You may not sell, give away, euthanize or otherwise dispose of the animal during the quarantine period. Escaping from quarantine is regarded as a violation of this order, and must be reported to the ACO immediately. If the animal dies during the quarantine period, the ACO must be notified immediately and the animal tested for rabies.

The ACO must be permitted to make periodic observation or examination of the animal at the place of quarantine during the quarantine period. The ACO must visually inspect the animal at the end of the 10-day quarantine period; the animal may still require a veterinary exam. A veterinarian must examine the animal at the end of the 4-month or 6-month quarantine period. Failure to heed this notice and abide by the restrictions herein given will subject the animal to seizure by the ACO for quarantine at owner's expense at a state licensed boarding kennel or veterinary hospital and will subject the owner to any penalties prescribed by State Law.
